FALLS CHURCH, VA.

TELEPHONE 48

NOTICE!

If you do not find the variety or article you want in this list, we will be pleased to have you write us. In this Catalogue we have not listed all varieties.

Most of the prices listed are for our selection of plants or shrubs. It is very difficult to set a standard price, due to the fact there is usually a difference in the growth, size and shape of all plants, trees and stocks.

We are always pleased to have visitors look at our stock of flowers, and for our many customers to choose in advance the plants they desire.

Our gardens are located on Broad Street, Falls Church, Va.; only six miles from Washington, D. C. The gardens cover a wide acreage, leading all the way from Broad Street.

We grow, beside Nursery Stock, about 5 acres of Cut Flowers.

We will be pleased to call or give any suggestions for planting or landscape work.

We are experts in laying out lawns, yards or parks, and the orchards planted by us can not be excelled.

Evergreen Trees

For ornamental planting evergreen trees are always dependable. They are hardy and readily take their proper place in any landscape scheme. For massed planting they are more desirable than deciduous trees, while for specimen planting they also have a high value. In massed plantings a good method is to set out a few tall-growing varieties with lower growers in front.

Owing to the structure of the soil, our evergreens dig out with an excellent ball of earth around the roots. This protects them in transit and makes them come through the transplanting stage with flying colors.

FIR NORDMAN

Price, \$5.00; \$8.00.

AFIES—Fir

Abies concolor. White Fir. A very hardy and graceful tree. Foliage heavy, bright green; cones usually purple. Grows rapidly and to considerable height. An excellent landscape tree.

Price, \$2.00; \$3.00.

Silver Fir.

Price, \$5.00; \$8.00.

Biota aurea nan. Fine plant of dwarf habit, compact and bushy. Always beautiful, rich golden-tipped foliage.

Price, \$2.50; \$3.50.

JUNIPERUS—Juniper

J. communis hibernica. Irish Juniper. One of the finest Junipers for ornamental planting. The trunk is straight, and branches very closely appressed to the trunk, giving the tree a formal and columnar appearance. Foliage sea-green.

Price, \$1.25; \$2.50; \$5.00.

J. Sabina. Compact Savin Juniper. A low grower of somewhat bushy habit. Foliage dark green and dense. For rockeries and mass planting.

Price, \$2.50; \$3.50; \$4.00.

J. Virginiana glauca. Blue Red Cedar. The leading Cedar for specimen planting. Foliage bright silvery blue. Tree is pyramidal in outline. A beautiful variety worthy of wide planting.

Price, \$6.00; \$7.50.

PICEA—Spruce

P. excelsa. Norway Spruce. A handsome tree widely used for Christmas trees. Foliage is dark, shining green. The tree grows to considerable height. Has numerous uses, being valuable for hedges, or mass and specimen planting. Extremely hard.

12 to 15 inches.....	\$1.00
15 to 18 inches.....	1.25
18 to 24 inches.....	1.50
2 to 3 feet.....	2.00
3 to 4 feet.....	3.25
4 to 5 feet.....	4.75
5 to 6 feet.....	5.75

P. pungens glauca Kosteri. Koster's Blue Spruce. Perhaps the most beautiful evergreen grown. Grows to medium height and always preserves its handsome pyramidal shape. The foliage is a clear even shade of blue, which causes it to stand out well in comparison with other evergreens. For specimen planting or for massing in front of darker leaved evergreens, Koster's Blue Spruce has no competitor anywhere.

Price, \$6.00 to \$7.50, up.

P. orientalis. Oriental Spruce. A very graceful tree of tall growth. Its form is broadly pyramidal. Foliage is dark green and shining. The branches start close to the ground. One of the leading trees for specimen planting.

Price, \$1.50; \$2.00; \$3.00.

PINUS—Pine

Pinus austriaca. Austrian Pine. A handsome tree of graceful growth. Foliage is a very deep green, stiff and prickly. A very hardy tree, worthy of a place on your lawn. Best for specimen planting.
Price, \$2.00; \$3.00; \$5.00.

P. Mughus. Dwarf Mugbo Pine. A low tree of dense compact habit. Foliage is a deep dull green. The tips of the branches are curved upward. A spreading tree for specimen planting, but also good for massing.
Price, \$2.00; \$3.00; \$4.00.

P. Strobus. White Pine. A very hardy tree of open growth. The foliage is bright green and droops gently but not enough to present a weeping appearance. The bark is smooth and very dark. A fine tree for specimen planting.
Price, \$1.75; \$2.50; \$3.50.

P. sylvestris. Scotch Pine. A graceful tree with round, shapely head. Leaves are bluish green and rather stiff. Tree is a rapid grower and reaches considerable height. An open tree especially valuable for specimen planting.
Price, \$1.75; \$2.25.

P. Thunbergii. A giant tree growing to 120 feet in height. Its habit is broad and spreading, pyramidal in outline. Leaves stiff, pointed, grayish green. Perfectly hardy. A fine specimen tree, and also good in landscaping.
Price, \$2.50; \$3.50.

RETINOSPORA—White Cedar

Retinospora ericoides. A most beautiful tree the year round. In summer the foliage is nearly violet, turning to green in winter. Grows to variable height. Form pyramidal and habit compact. Good for specimen planting.
Price, \$2.00; \$2.50.

R. obtusa. Compacta. A low, graceful tree, with bright green foliage. The branches are slightly pendulous. Recommended for specimen planting. It is good for planting where a low hedge is wanted.
Price, \$1.75; \$2.25.

R. pisifera. Sawara Cypress. A medium-sized tree with erect, compact branches. Foliage is dark green and presents a very pleasing contrast when the tree is planted in front of brighter colored evergreens. A formal tree of pyramidal outline.

R. pisifera aurea. In habit this tree is similar to the above. Foliage is feathery and a deep golden color. A beautiful tree for specimen planting.
Price, \$2.50; \$3.50.

R. plumosa. Plume Cypress. An erect tree, with slender, erect branches and dense, feathery, dark green foliage. A very attractive tree for either hedge or specimen planting.
Price, \$1.75; \$3.00; \$4.00.

R. plumosa aurea. Gold-plumed Cypress. In most respects similar to the above. Foliage is a beautiful golden yellow. A very popular evergreen and widely used in specimen planting.
Price, \$1.75; \$3.00; \$4.00.

R. Squarrosa.

R. Sulphurea.

R. Equarrosa Veitchii.

R. Luteseus.

Price, \$2.00; \$2.50 Each.

TAXUS—Yew

Taxus cuspidata. Japanese Yew. A very hardy tree growing to variable height. Foliage is deep green and neat appearing.
Price, \$3.00; \$6.00; \$7.50.

T. cuspidata brevifolia. A dwarf variety of Japanese Yew. The branches are long and spreading, covered with deep green leaves.
Price, \$3.00; \$6.00; \$7.50.

T. hibernica. Irish Yew. An attractive slow-growing tree of pyramidal outline. The trunk is straight and the branches are erect and closely appressed. The leaves are a clear shiny green. An excellent specimen tree widely used in cemeteries or other places where a very formal effect is desired.
Price, \$6.00; \$7.50.

THUYA—Arborvitae

Thuja occidentalis. American Arborvitae. A hardy tree, with somewhat spreading base, but of a pronounced pyramidal outline. Foliage is bright green, with a golden touch on under side.

12 to 15 inches.....	\$0.90
15 to 18 inches.....	1.25
18 to 24 inches.....	1.50
24 to 36 inches.....	2.00
36 to 48 inches.....	3.00
4 to 5 feet.....	4.25
5 to 6 feet.....	5.75
6 to 7 feet.....	6.75

T. occidentalis Ellwangeriana. This variety forms a low-spreading pyramid. Branches are slender and densely covered with variegated bluish purple foliage. Makes a fine tree for lawn planting and is desirable as specimen plants.
Price, \$2.50; \$3.50.

T. occidentalis globosa. A handsome tree, with a round compact head. Foliage dark green and very dense. Good as specimens or porch decorations.
Price, \$2.25 to \$10.00.

T. occidentalis Hoveyi. A small globe-shaped variety, with dark green foliage. Very dense and compact. Used as specimens.
Price, \$2.25.

T. occidentalis lutea. George Peabody's Arborvitae. Pronounced by many the most beautiful Arborvitae. Its form is a broad pyramid, and it is densely covered with clear golden yellow foliage. For single specimens on lawns this tree has no superior. Considered to hold its color better than other golden Arborvitae.
Price, \$2.75.

T. occidentalis pyramidalis. Pyramidal Arborvitae. This is one of the most shapely evergreens, having a uniform pyramidal outline which it retains at all times. Foliage is light green. Branches are numerous and dense. An excellent ornamental tree for specimen planting, as popular as the American Arborvitae.
Price, \$3.00.

T. occidentalis Rosenthalii. Very dense dark green foliage on numerous branches, making a tree of compact habit. A good specimen tree.
Price, \$2.75.

T. occidentalis Vervaeneana. A very compact form, with slender branches and bronzy yellow foliage becoming deeper in winter. A good specimen tree.
Price, \$2.25.

TSUGA—Hemlock Spruce

Tsuga canadensis. Common Hemlock. A medium sized tree, with slender drooping branches. Small leaves of dull green. A very graceful tree and a credit to any lawn. Used in specimen planting.
Price, \$2.25; \$3.00; \$5.00 to \$25.00.

Evergreen Shrubs

These beautiful plants, of which the Rhododendron is considered the best, are among the headliners of ornamental shrubs. They are always in good taste, and their hardiness makes them valuable over a wide range of territory. Evergreen Shrubs require but very little care to make them grow and bloom, but like everything else that grows, good care will make them produce the best results. Whenever possible to plant in masses, we recommend it, for this method always shows them off to best advantage. This scheme is especially good for small shrubs, while the larger ones, such as the lilacs, make good specimens.

ABELIA

Abelia chinensis (*A. rupestris*), a graceful shrub, with long drooping branches. Foliage is a very deep green and so dense as nearly to cover the branches. Blooms all summer; flowers numerous, light pink. A useful shrub for hedges or for mass or specimen planting.

Price, \$1.50; \$2.00; \$2.50.

AZALEA

Azalea amoena. Hardy Evergreen Azalea. A busy low-growing shrub bearing purple flowers. The foliage is green in summer, becoming golden in fall and winter. A very neat shrub of ornamental effects.

Price, \$3.00.

A. Hinodigiri. In some respects similar to *Amoena*. Foliage is bright green. Flowers are vivid bright red. A profuse bloomer and an excellent shrub for ornamental planting.

Price, \$3.50.

BUXUS—Boxwood

Buxus sempervirens. Too well known to need a description. The aromatic foliage is always glossy and green.

Price, \$2.25; \$2.75; \$3.50, and up.

EUONYMUS

Euonymus japonica. Evergreen Euonymus. An ornamental shrub, with stiff glossy foliage. Can be used very effectively as tubbed plants.

Price, \$2.25.

MAHONIA

Mahonia Aquifolium. Holly-leaved Mahonia. A rather dense shrub of bushy habit. Branches erect, numerous, and densely clothed with handsome foliage. Leaves are green and purple in summer, changing to red and yellow in the fall and remaining through winter. A large number of yellowish flowers are borne during May.

Price, \$1.50; \$2.00; \$5.00.

MYRICA

Myrica cerifera. Bayberry, or Wax Myrtle. A small shrub worthy of extensive planting. Leaves are dull green and keep their pleasing color nearly all the year. A peculiar thing about the foliage is its delightful fragrance. A mass planting of this shrub is always a valuable addition to the appearance of the lawn.

Price, 75c; \$1.00; \$2.00.

RHODODENDRON MAXIMUM

A very hardy species, native to our mountains. Foliage bright green. Flowers, rosy pink; a late bloomer.

Price, \$3.00; \$4.50; \$6.00, and up.

Deciduous Ornamental and Shade Trees

On the lawn, street, and avenue the best trees to plant are the deciduous varieties—those that drop their leaves in the fall. They are not generally used in mass planting, but as specimens their value is at once apparent. In clumps at the ends of a house or back of it, they give a higher tone to the house, forming a background and frame for the home picture.

Nearly all deciduous trees are hardy, and will grow well in a wide variation of latitude. They are especially desirable for the shade they furnish and for the beauty they add to the landscape. They are widely used in street and park planting, but nowhere do they show to better advantage than on the home grounds.

In planting deciduous trees no special preparation of the soil is necessary, but the hole should be large enough to allow the tree to be set without the roots touching the sides of the excavation. Our trees are dug with good roots and should be planted as quickly as possible after arrival.

ACER—Maple

Acer campestre. European Cork Maple. This Maple does not grow very tall, but it has numerous branches and myriads of small dull green leaves, making a compact appearance. A good lawn tree, for it affords an abundance of shade.
Price, \$1.50; \$2.00.

A. dasycarpum. White or Silver-leaved Maple. A rapid-growing tree attaining considerable size. Leaves are bright green on top, with a silver sheen on under side, deeply cut and five-lobed. A handsome tree in wide use both for street and lawn planting.
Price, 75c; \$1.00; \$1.50.

A. dasycarpum Wieri laciniatum. Wier's Cult-leaved Silver Maple. A very desirable variety resembling *Dasycarpum* but of a drooping habit. The leaves are deeply cut and quite numerous, and silvery green in color.
Price, \$1.50; \$2.00.

A. Négundo aceroides. Ash-leaved Maple, or Box Elder. A vigorous tree, thriving in dry locations; spreading habit. Leaves are small, in groups of three, bright green on top, hairy beneath.
Price, \$1.25; \$1.50.

A. platanoides. Norway Maple. We think that this variety is one of the best of all the Maples. It is a tall grower, straight, and carries a handsome, round, spreading head. The leaves are dark green, glossy, and very dense; about 6 inches across. In fall the Norway Maple is very beautiful with its patches of green, yellow, and golden foliage. For lawn and street planting you can't beat Norway Maples.
Prices, \$1.75; \$2.00; \$2.50, and up.

A. platanoides Schwedleri. Schwedler's Norway Maple. The young foliage and shoots are bright violet-purple, changing to greenish purple. A handsome and valuable tree for lawn planting.
Price, \$2.50.

A. pseudoplatanus. Sycamore Maple. A large, handsome tree of rapid growth and spreading habit. Foliage is deep green, with many irregular and deep notches. Makes a handsome lawn tree.
Price, \$1.75; \$2.50.

A. rubrum. Red or Scarlet Maple. This is a large tree, with bold green foliage. This variety bears numerous scarlet flowers in spring. The leaves turn to scarlet in the fall. An excellent specimen tree, especially valuable in low or wet locations.
Price, \$2.25.

A. saccharum. Sugar or Rock Maple. An unusually good tree for street planting and very useful on lawns. Shape is rather symmetrical; leaves sea-green and shining, becoming vari-colored in fall. A slow grower, but one of the best Maples for general planting.
Price, \$1.75; \$2.25.

JAPANESE MAPLE

While the Japanese Maples are classed as deciduous trees, in growth and habit they more closely resemble shrubs. They possess very beautiful foliage, deeply cut and showing almost every color from a flashing green to a deep purple. They are attractive in any planting scheme, but in specimens on the lawn they show their beauty to best advantage.
Price, \$3.50 and up.

BETULA—Birch

Betula alba. European White Birch. A rapid-growing tree with white bark and shining green leaves. A very attractive tree on account of its pretty bark.
Price, \$1.50; \$2.00.

B. alba laciniata pendula. Cut-leaved Weeping Birch. A graceful tree of pronounced weeping habit. Branches slender and drooping. Foliage deeply cut and shining green. Bark greenish white on young tree, but silvery white on older specimens. One of the finest weeping trees.
Price, \$1.75; \$2.25.

B. lenta. Cherry or Black Birch. A distinct variety. Foliage very dark green and hairy. Branches spreading and curving downward at the tips. The bark on young specimens is pleasantly aromatic and quite dark. A desirable tree for lawn or landscape.
Price, \$1.75; \$2.25.

CARPINUS—Hornbeam

Carpinus americana. A handsome ornamental tree that will stand any amount of trimming and pruning. Used in hedges and specimen plantings.
Price, 75c; \$1.00; \$1.25.

C. Betulus. This is a hardy ornamental tree with a round compact head. Foliage deep green, changing in autumn to yellow and brown, and remaining through winter. An excellent hedge plant or for formal planting.
Price, 75c; \$1.00; \$1.25.

CATALPA

Catalpa Bungei. This is one of the neatest trees you can get for street and lawn planting. The trunk is straight and the head spreads out in umbrella fashion. The leaves are heart-shaped, large, and so numerous as to make a very dense, compact head.
Price, \$2.50; \$3.00; \$4.00.

C. speciosa. Western Catalpa. A fine-looking tree giving a tropical effect. Large oval leaves and fragrant purple-and-white flowers. Grows naturally in our climate. A handsome lawn tree.
Price, \$1.50; \$2.50.

CELTIS—Nettle Tree

C. occidentalis. A large tree of excellent shape. Leaves are rough, glossy green, somewhat hairy underneath. A good specimen tree.
Price, \$1.00; \$1.50.

CERASUS—Flowering Cherry

C. japonica flore-pleno. This is a double-flowered variety, with large rosy red flowers.
Price, \$2.50; \$3.00.

C. japonica rosea pendula. Similar to the above. Branches slender and more numerous, covered with rosy flowers and weeping.
Price, \$3.50; \$4.00.

CERCIS—Judas Tree, or Red-Bud

Cercis canadensis. A medium-sized tree bearing purplish flowers. Leaves are heart-shaped and clear green. An excellent lawn tree.
Price, 75c; \$1.00; \$1.50; \$3.50.

CLADRASTIS—Yellow Wood

Cladrastis tinctoria. A pretty, low tree, with small egg-shaped leaflets. Flowers are white and in graceful drooping clusters.
Price, \$2.00.

FAGUS—Beech

Fagus ferruginea. American Beech. The ordinary variety. Grows to large size; symmetrical shape and compact habit. Bark smooth, somewhat blue in color. Foliage light glossy green. Makes a desirable lawn tree.
Price, \$2.00; \$3.50.

F. sylvatica. European or English Beech. An attractive lawn tree, with small glossy leaves. Develops a round compact head.
Price, \$2.00.

FRAXINUS—Ash

Fraxinus americana. White Ash. A straight, tall-growing tree of good shape. Foliage is dull green, fading to bronze in fall.
Price, \$1.50; \$2.00.

GINKGO

Ginkgo biloba (Salisburia adiantifolia). Maidenhair Tree. A handsome street and lawn tree, defying smoke, dirt, and insects. Erect, pyramidal grower, with small heart-shaped leaves. Extensively used in Washington as a street tree. Perfectly hardy as far north as Canada.
Price, \$1.50; \$2.00.

GYMNOCLADUS—Kentucky Coffee Tree

Gymnocladus canadensis. An interesting tree bearing large brownish seed-pods. Foliage is palm-like with bluish green color. A good lawn tree.
Price, \$1.50.

KOELREUTERIA—Varnish Tree

Koelreuteria paniculata. A small shrubby tree, bearing pretty golden yellow flowers. Leaves purple in spring, changing to bright green, turning to bronze and red in fall. A handsome lawn tree.
Price, \$1.25; \$1.75.

LARIX—Larch

Larix europaea. European Larch. A tall, stately tree growing to 100 feet. Slender conical head in young specimens, becoming broad and irregular as the tree gets older. Foliage feathery and bright green. A peculiarity of the Larch is its being a cone-bearing tree. A remarkable tree for lawn and ornamental planting.
Price, \$1.25.

LIQUIDAMBAR—Sweet Gum

Liquidambar styraciflua. A low-growing tree with a neat pyramidal head. Leaves glossy green, deeply cut, giving them a star-like appearance. A brilliantly colored tree in summer and fall. Should be planted in spring. Our Sweet Gums have been frequently transplanted, and have an abundance of fibrous roots. Price, \$1.75; \$2.00; \$2.25; \$3.00.

MAGNOLIA

Price, \$6.00 to \$10.00.

MORUS—Mulberry

Morus alba pendula. Teas' Weeping Mulberry. A very hardy weeping tree of low growth. Trunk is straight, capped by numerous vine-like branches which droop to the ground. Foliage bright lustrous green. An excellent tree for planting on lawns, parks, and cemeteries.

Price, \$2.00; \$2.50; \$3.00.

Siberia-Russian.

Price, \$1.25.

LIRIODENDRON—Tulip Tree

Liriodendron tulipifera. A handsome lawn tree of pyramidal outline. Large leaves with blunt, square ends, bluish green above and paler beneath. In May this tree bears a multitude of greenish yellow and orange tulip-shaped flowers. Grows to gigantic size, sometimes nearly 200 feet.

Price, \$1.00; \$1.50; \$2.00.

PAULOWINA—Empress Tree

Paulownia imperialis. A noble tree with a round spreading head. Leaves dull green, but sometimes a foot in length. Bears fragrant violet flowers. A good shade tree on account of the size and density of its foliage. Makes an excellent tree for either lawn or landscape planting. Stands smoke, dust, and insects well.

Price, \$2.00; \$2.50.

PLATANUS—Plane Tree, or Buttonball

Platanus occidentalis. American Sycamore. A gigantic tree attaining a height of 150 feet, the trunk sometimes becoming 10 feet in diameter. Bark often creamy white. Leaves short, broad, and star-pointed. A hardy tree and valuable in lawn and street planting.

Price, \$1.50; \$2.00.

P. orientalis. European Sycamore. Another massive tree attaining 80 feet in height. Foliage is bright green, dense, and deeply cut. The bark peels off in autumn leaving the trunk and branches a creamy color. Extensively used as a street and lawn tree, for it is both useful and ornamental.

Price, \$1.50; \$2.00.

POPULUS—Poplar

Populus alba nivea. Silver Poplar. A straight tree with silvery white leaves shaped like those of the Maple. A pretty tree making a pleasing contrast when planted with trees of darker foliage.

Price, \$1.50; \$2.00.

P. alba Bolleana. Bolle's Silver Poplar. Grows to about 75 feet. Foliage silvery white and very striking. Tree is graceful and similar in shape to the Lombardy variety.

Price, \$1.25; \$1.75.

P. balsamifera. Balsam Poplar. A hardy, tall-growing tree forming a spreading symmetrical head. Foliage dark shining green above and grayish beneath. The buds give off a delightful resinous odor. An excellent ornamental tree.

Price, \$1.25; \$1.75.

P. carolinensis (*P. monilifera*). Carolina Poplar. A large tree bearing a slight resemblance to *Deltoides*, but the leaves are more pointed. An excellent tree for general planting. This variety is widely planted in some cities as a street tree.
Price, \$1.00; \$1.50; \$2.00.

P. nigra italic. Lombardy or Italian Poplar. One of our most ornamental trees. Tall grower; branches erect and closely appressed to the trunk. Foliage dark green and lacking the luster characteristic of other varieties.
Price, \$1.00; \$1.50; \$2.50.

QUERCUS—Oak

Q. coccinea. Scarlet Oak. Has a narrow, pyramidal head and numerous short branches. Leaves are crimson at time of opening, changing to bright green in summer and to blazing scarlet in autumn.
Price, \$2.00; \$2.50.

Q. palustris. Pin Oak. A superb tree with pendulous branches giving a somber effect. Foliage dark green, changing to fiery scarlet in autumn. A shapely tree widely planted for its beauty. One of the best Oaks for street or lawn planting.
Price, \$1.00; \$2.25; \$2.75.

O. Phellos. Willow-leaved Oak. A tall tree, with a round, graceful outline. Leaves are like those of the Willow; bright green, changing to red and bronze in autumn. A rather slow grower, thriving best in moist locations.
Price, \$2.00; \$2.50.

Q. rubra. American Red Oak. A fine shade tree, with symmetrical crown. Foliage, crimson in early spring, dull green in summer, changing to brown and bronze in autumn. The leaves are very large, sometimes growing to 9 inches in length.
Price, \$2.50; \$3.00.

ROBINIA—Locust, or Acacia

Robinia hispida *rosa.* Hairy Locust. A shrubby tree growing to about 10 feet. The entire plant is covered with stiff, bristly hairs. Bears loose trusses of rosy pink flowers in May.
Price, \$1.00; \$1.25.

SALIX—Willow

S. babylonica. Common Weeping Willow. A large tree with drooping branches. Leaves are small, bright green, and numerous. Excellent for wet locations but a credit to any lawn.
Price, \$2.00; \$3.00.

S. babylonica dolorosa. Wisconsin Weeping Willow. A variety of Babylonian but possessed of greater hardiness. Branches shiny green, foliage sea-green.
Price, \$1.25; \$1.75.

S. Caprea. Pussy Willow. A rapid-growing tree, doing best in moist locations. Leaves are whitish green. Bears numerous furry catkins in early spring.
Price, 75c; \$1.25.

S. elegantissima. Thurlow's Weeping Willow. Similar to Babylonian but considered more desirable both for its beauty and hardiness. Bark yellowish, branches pendulous. Forms a graceful lawn tree.
Price, \$1.25; \$1.75.

S. pentandra (*S. laurifolia*). Laurel-leaf Willow. A low-growing tree of compact habit. Leaves are very large, dark green, and odorous when bruised. An excellent tree for ornamental planting.
Price, \$1.25; \$1.75.

S. rosmarinifolia (*S. incana*). Rosemary Willow. A small, shrubby tree, with long, slender branches, forming a round head. Leaves long and narrow, bright green above and hairy beneath. Quite attractive. Price, \$1.25; \$1.75.

S. vitellina aurea. Golden Willow. A variety of the above and similar in foliage and habit. Bark of branches golden yellow, especially noticeable in early spring. A very pleasing contrast is obtained when planted with evergreens. Price, \$1.25; \$1.75.

SOPHORA

Sophora japonica. Japanese Copbora. A graceful tree of medium size. Foliage glossy dark green, turning to golden yellow in fall. Flowers white, borne in mid-summer. Good for landscape and lawn. Price, \$1.50; \$2.00.

TILIA—Linden, or Lime Tree

Tilia americana. American Linden, or Basswood. A stately tree with a broad spreading head. Widely used for street and lawn planting. Leaves heart-shaped, dark green above, paler beneath, turning to golden in fall. Flowers creamy white, fragrant. Very handsome tree. Price, \$2.25; \$2.75.

ULMUS ELM

U. americana. American, White, or Water Elm. One of the most picturesque and stately trees that grow. In old specimens the top branches are long and curve gently downward at the ends. Foliage is notched, dull green, turning to dull yellow in autumn. For lawn, street, or landscape, large specimens like ours will give quick results and present a distinctive appearance. Price, \$3.00; \$3.75.

Deciduous Flowery Shrubs

The proper way to plant shrubs is in irregular clumps, selecting varieties that will give harmony or contrast as desired. For planting in borders, about the house foundations, or in corners flowering shrubs are the most effective. Some varieties are also good for specimen planting.

When you plant shrubs, be sure to dig the hole large enough to allow the roots to be set without cramping. It is always good policy to have bottom of the hole a little larger than the top. The plant should be set firmly, the soil tamped gently, leaving a shallow space around the stem. This serves as a saucer to hold water.

Prune your shrubs after they have finished flowering, thinning out all dead or spindly branches. It is well to keep the soil about the plant stirred up so as to help retain the moisture about the roots. The dates given after the descriptions are the blooming periods.

ALTHAEA OR HIBISCUS

Clumps of these shrubs make desirable additions to any lawn or landscape plan. They are strong, erect plants, and the colors of the different varieties blend nicely in a mass planting. They bear an abundance of delightful flowers from July to September. Price, 75c; \$1.00; \$1.50.

Comte de Haimont. Double; white and pink.
Foliis. Large, double flowers of brilliant purple.
Jeanne d'Arc. Wonderful snowy white; double.
Paeniflora. Very light pink; double.
Tota alba. Single; white.

AMELANCHIER

Amelanchier Botryapium. Dwarf Juneberry. A handsome shrub, with silvery leaves and snowy white flowers. Bears violet-blue berries after blooming. A very pretty and attractive shrub. June. Price, 75c; \$1.00; \$1.25.

AMORPHA

Amorpha canescens. Lead Plant. Low, compact shrub, covered with dense silvery foliage. Bears myriads of light blue flowers from June 5 to July 1. Price, \$1.00; \$1.25.

A. fruticosa. False Indigo. A handsome shrub growing to 8 feet tall. Foliage bright green and feathery. Indigo-colored flowers borne on stiff spikes. On account of its ultimate size this variety may also be used as a specimen plant. May 15 to June 1. Price, 75c; \$1.00; \$1.25.

AMYGDALUS—Almond

Amygdalus chinensis albo-plena. Double White-flowered Almond. An erect, slender shrub with bright, shiny foliage. Bears fragrant white flowers in May. Price, \$1.00; \$1.25.

A. chinensis roseo-plena. Double Pink-flowering Almond. Same as the preceding in habit, but bears pink flowers. May. Price, \$1.00; \$1.25.

A. Persica albo-plena. Double White-flowering Peach. A handsome lawn shrub, bearing large, double, white flowers before the leaves open. April 5 to 20. Price, \$1.25.

A. Persica rubro-plena. Double Red-flowering Peach. In shape and habit the same as the preceding. Flowers are red instead of white. Good for cutting. April 5 to 20. Price, \$1.25.

ANDROMEDA

Andromeda arborea. Sorrel Tree. A medium-sized shrub, blooming in July. The flowers are white. Foliage is bright green, changing after the blooming period to golden red. A fine shrub for specimen planting. Price, 75c; \$1.00; \$1.25.

ARALIA

A. pentaphylla. A graceful shrub, with gently drooping branches. Foliage is bright green, dense, and remains until late autumn. An excellent shrub for lawn planting, for it does well under unfavorable conditions. Price, 75c; \$1.00.

A. spinosa. Hercules' Club. A large shrub, with large, bright green leaves. Branches are slender, and bear large trusses of creamy flowers, followed by dark purple berries. September. Price, 75c; \$1.00; \$1.25.

AZALEA

For a real brilliant color effect this hardy shrub is unusually good. In the blooming period the entire shrub is solid mass of color. Many tints and shades are shown in the different varieties, and a mass planting of them will leave little to be desired in the blooming season. If a proper selection is made, you can have some in flower from April to July.

Azalea arborescens. Fragrant White Azalea. A handsome shrub, with showy bright green foliage and fragrant white-and-pink flowers. Price, \$2.50; \$3.50.

A. mollis. Mixed colors. A distinct addition to the Azalea family. The shrubs are small, but the flowers are quite large, vari-colored, and abundant. Price, \$2.00; \$2.50.

A. nudiflora. Pinxter Flower. Low-growing shrub, bearing deep pink flowers before the leaves unfold. Price, \$2.50; \$3.50.

A. pontica. Hardy Ghent Azalea. A fine variety. The flowers of the different sorts show a wide range of color. The dark green leaves turn to red and brown in fall. Price, \$3.50.

A. viscosa. Flowers white with rosy touch.
Price, \$2.50; \$3.50.

BACCHARIS—Groundsel Bush

Baccharis halimifolia. An attractive small shrub. Foliage is dark green and remains on the bush until late autumn. Bears clusters of seed-pods from September until after frost. A valuable hardy shrub.
Price, 75c; \$1.00; \$1.25.

BUDDLEIA—Butterfly Bush

B. Veitchii. An extremely handsome shrub, with large, long green leaves tinged with light pink. Bears long clusters of sweetly scented reddish lilac flowers. July 10 to frost.
Price, 75c; \$1.00; \$1.50.

CALLICARPA—French Mulberry

Callicarpa purpurea. Purple-fruited *Callicarpa*. A hardy shrub with large dark green leaves. Bears a profusion of pink flowers, followed by purple fruits remaining until midwinter. Blooms in August and berries begin in September. An excellent lawn shrub.
Price, 75c; \$1.00; \$1.25.

CALYCANTHUS—Sweet-Scented Shrub

Calycanthus floridus. Carolina Allspice. A fine ornamental shrub, with large green leaves, rough on upper surface. Handsome chocolate-colored flowers having a marked spicy odor. Excellent for planting with shrubs bearing flowers of other colors. April.
Price, 75c; \$1.00; \$1.50.

CARAGANA—Pea Tree

Caragana arborescens. Siberian Pea Shrub. Grows to considerable size. Leaves are compound and composed of numerous small leaflets; bright green. Flowers golden yellow. A neat shrub and large enough to create a splendid effect as specimen plants. Blooms in May.
Price, 75c; \$1.00; \$1.25.

CEANOTHUS—New Jersey Tea

Ceanothus americanus. Grows to 2 feet. Very good for massing in front of taller shrubs. Leaves dazzling green. Flowers white and numerous. June and July.
Price, 75c; \$1.00; \$1.25.

CEPHALANTHUS—Button Bush

Cephalanthus occidentalis. A tall-growing shrub, with lustrous dark green leaves. Bears dense heads of fragrant, creamy white flowers. A handsome shrub in mass plantings but is also good as specimens. Especially adapted to wet places. July.
Price, 75c; \$1.00; \$1.25.

CHIONANTHUS—Fringe Tree

Chionanthus virginica. A large, well-shaped shrub, with glossy green foliage. Flowers pure white and thread-like, borne in long panicles. June.
Price, \$1.00; \$1.50.

COMPTONIA

Comptonia asplenifolia. Sweet Fern. A handsome little shrub rarely exceeding 3 feet in height. Bark is brown; foliage dark green and fern-like. Flowers are yellowish red, followed by reddish seed-pods. Perfectly hardy. June 1 to 25.
Price, 75c; \$1.00; \$1.25.

CORYLUS—Hazel

Corylus americana. Leaves large, velvety green. The young branches are covered with a hairy growth. Bears numerous small brownish nuts.
Price, \$1.00; \$1.25.

C. Avellana. Filbert. A tall, spreading shrub with heart-shaped, deep green leaves. The nuts are large and have fine edible kernels. Good for screens and as a background for small shrubs.
Price, \$1.00; \$1.25.

CORNUS—Dogwood

For planting in borders or in wet locations the Dogwoods are valuable and effective shrubs. They are hardy, vigorous growers, and bear a profusion of showy flowers. The bright colors of the blooms and handsome foliage make striking effects in either mass planting or borders, while some of the larger varieties are good as specimens.

C. florida. White Dogwood. A low-growing variety suitable for massing. Foliage wavy sea-green. Flowers white, 4 inches across. Blooms in April.
Price, 50c; \$1.00; \$2.00.

C. florida flore-rubro. Red flowering Dogwood. In form and habit the same as Florida. Flowers are large pink. April.

Price, \$1.75; \$2.50; \$5.00.

C. Mas. Cornelian Cherry. A large dense shrub, useful in specimen planting. Flowers yellow, in small clusters appearing in early springs before the leaves unfold. Small, cherry-shaped, scarlet fruits.
Price, \$1.00; \$1.50.

C. sericea (*C. Amomum*). Silky Dogwood. Fruit bluish; foliage long, narrow, dark green. Bears flowers in late spring.

Price, \$1.00; \$1.25.

C. sibirica. Red Siberian Dogwood. Very conspicuous in winter on account of its bright red bark. Handsome and useful in border planting.

Price, \$1.00; \$1.50.

C. stolonifera. Red Osier Cornel. A spreading shrub with beautiful reddish purple branches. Foliage dark green above, and paler beneath. Flowers white, followed by white berries. This shrub is a low grower and makes a fine appearance the whole year.

Price, 1.00; \$1.50.

C. stolonifera aurea. A golden form of the preceding.

Price, \$1.00; \$1.50.

CRATAEGUS—Hawthorn

Crataegus coccinea. Scarlet Thorn. A tree-like shrub growing to 20 feet. Foliage deep green and lustrous. Flowers single, white. Bears vivid scarlet fruits in autumn. Blooms in May.

Price, \$1.50.

C. Oxyacantha monogyna albo-plena. Similar to the preceding except in flower; double white.

Price, \$1.50.

C. Oxyacantha Paulii. Paul's Scarlet. Considered the best Hawthorn. Flowers vivid scarlet.

Price, \$1.50.

CYDONIA—Quince

Cydonia japonica. Japan Quince. A showy shrub of bushy habit. Foliage glossy green; flowers brilliant scarlet. April.

Price, 75c; \$1.25.

CYTISUS

Cytisus Laburnum. Golden Chain. A large shrub, with glossy bright green leaves. The flowers are golden yellow and borne in great profusion. Ideal for specimens but also good in mass planting.

Price, \$1.00; \$1.50.

DESMODIUM—Lespedeza

Lespedeza bicolor. A tall shrub with stiff slender branches. Foliage dark green; flowers rosy pink. An excellent shrub for massing, but is also desirable for specimen planting. Blooms in fall.

Price, 75c; \$1.25.

DEUTZIA

A species of hardy shrubs of vigorous growth and habit. The flowers are very showy and borne in great profusion in May and June. Deutzias are easy to grow and will

thrive with almost no care or cultivation, although a little attention will produce more and better flowers.
Price, 75c; \$1.00; \$1.50; \$2.50.

Deutzia candidissima. An upright shrub, with numerous double white flowers.

D. crenata flore-pleno. A tall shrub, with double rosy white flowers borne in long spikes.

D. gracilis. A low-growing shrub of dense, compact habit. Flowers snowy white.

D. Lemoinei. A low grower, with numerous arching branches. Foliage bright green. Flowers white, produced in abundance.

D. Pride of Rochester. A handsome variety with large flowers of pinkish white.

ELAEAGNUS—Silver Thorn

Elaeagnus angustifolia. Russian Olive. A large shrub with shiny green foliage. Flowers are yellow, fragrant, and very pretty. Berries yellow. A handsome and attractive shrub for specimen planting. June.
Price, \$1.00; \$1.25.

E. longipes. The "Goumi" of Japan. A large attractive shrub with silvery green foliage. The fragrant yellowish flowers appear in May, followed by a profusion of scarlet-yellow fruits with an agreeable, slightly acid taste.

Price, \$1.00; \$1.25.

EUONYMUS—Spindle Tree, or Burning Bush

Euonymus alatus. Winged Burning Bush. A handsome shrub with bright green oval leaves, changing to crimson in fall. The branches are broad and corky winged.

Price, \$1.00; 1.25.

E. europaeus. European Spindle Tree. A large tree-like shrub with dark green foliage. Flowers yellowish, followed by pinkish white fruits. A pleasing lawn specimen.

Price, \$1.00; \$1.25.

EXOCHORDA—Pearl Bush

Exochorda grandiflora. A neat-appearing shrub growing to 10 feet. Leaves bright green above, silvery green beneath, fading to yellow in fall. Flowers large, white, produced in clusters. May.

Price, \$1.00; \$1.50.

FORSYTHIA—Golden Bell

Price, 50c; 75c; \$1.00; \$1.50; \$2.00.

Forsythia intermedia. Hybrid Golden Bell. A fine lawn shrub on account of its size and attractiveness. Branches slender and arching; foliage lustrous dark green; flowers yellow, borne in great profusion.

F. suspensa. Weeping Golden Bell. A good specimen shrub with graceful, drooping branches. Foliage is dark green; flowers yellow.

F. Fortunei. Fortune's Golden Bell. More upright in growth than the preceding. Leaves dark green, three-lobed; flowers yellow in April.

F. viridissima. Dark Green Forsythia. A valuable shrub with dark green branches. Foliage very dark green; flowers golden yellow opening in early spring.

HAMAMELIS—Witch Hazel

H. virginica. Witch Hazel. A large spreading shrub. Leaves large and heart-shaped. Flowers are bright yellow, blooming in early fall. A good specimen shrub.

Price, 75c; \$1.00; \$1.50.

HYDRANGEA

Hydrangea arborescens or everblooming. Wild Hydrangea. Grows to 8 feet tall. Foliage bright green, bluish underneath; flowers creamy white, borne in flat clusters. June.

Price, 50c; 75c; \$1.00; \$1.50.

H. paniculata grandiflora. Large-flowered Hydrangea. We think this variety one of the most popular of all flowering shrubs. The foliage is a clear green. The flowers are pure white, changing to pink; large in size, and produced in large clusters. Make an admirable hedge plant as it will stand much pruning. To produce very large clusters of flowers this variety should be pruned each spring. Blooms from July to September.
Price, 75c; \$1.00; \$1.50.

H. quercifolia. Oak-leaved Hydrangea. A distinct shrub, with very large leaves, deep green in summer, changing to beautiful colors in fall. Flowers white, borne in large clusters. A handsome ornamental shrub.
Price, \$1.00; \$1.50.

Otaska. Price, \$1.25.

HYPERICUM—St. John's Wort

Hypericum aureum. Golden Hypericum. A dwarf shrub growing to about 3 feet. Foliage bluish green above and paler beneath. Flowers yellow, nearly 2 inches across. Excellent for massing in front of taller shrubs. July to August.
Price, 75c; \$1.00; \$1.25.

H. densiflorum. Dense-flowered St. John's Wort. The leaves are long and narrow; dark green. Flowers bright golden yellow. July to August.
Price, 75c; \$1.00; \$1.25.

Hypericum Kalmianum. Kalm's St. John's Wort. Foliage bluish green; flowers yellow. A low-growing variety for massing.
Price, 75c; \$1.00; \$1.25.

ILEX—Deciduous Holly

Ilex verticillata. Black Alder, or Winterberry. This fine shrub is famous for its sprays of scarlet berries which are much used for decorating. Bears white flowers in June.
Price, 75c; \$1.00; \$1.25.

ITEA—Virginian Willow

Itea virginica. A low-growing shrub bearing an abundance of fragrant white flowers. Foliage lustrous green, changing to red in fall. June.
Price, 75c; \$1.00; \$1.25.

JASMINUM—Jasmine

Jasminum nudiflorum. Naked-flowering Jasmine. A valuable shrub on account of its early blooming period. Foliage dark green; flowers bright yellow. March.
Price, 75c; \$1.00; \$1.25.

LAGERSTROEMIA—Cape Myrtle

Lagerstroemia indica. One of the most beautiful of all flowering shrubs. Grows to medium size, and is widely used in the South in specimen planting. Handsome red, pink and white flowers are borne from June until October.
Price, \$1.00; \$2.50.

LAURUS—Spice Wood

Larus Benzoin. Grows to large size if not pruned. Foliage and wood aromatic; leaves large; flowers small, yellow. Can be sheared to any desired shape and makes excellent porch or lawn ornaments when used as tubbed specimens.
Price, \$1.00; \$1.25.

LONICERO—Honeysuckle

L. Morrowii. Japanese Bush Honeysuckle. Flowers are white. Bears scarlet berries in late summer and fall. April.
Price, 75c; \$1.00.

L. tatarica rosea grandiflora. Flowers are creamy pink, large.
Price, 75c; \$1.25.

L. Ruprechtiana. Manchurian Honeysuckle. Flowers white and fragrant. Bears vivid red berries in June.
Price, 75c; \$1.25.

MALUS—Fragrant Flowering Crab

Malus atrosanguinea. A fine ornamental shrub of good size. Flowers are deep purple, followed by small fruits.
Price, \$1.50; \$2.00.

M. floribunda. A handsome shrub, bearing sweet-scented, pink flowers. April.
Price, \$1.50; \$2.00.

M. floribunda Scheideckeri. Double-flowering Crab. The flowers of this variety are rosy white and of double formation.
Price, \$1.75.

M. ioensis Bechteli. Bechtel's Double-flowering Crab. A fine shrub, forming a symmetrical, compact bush. The rose-like flowers are fragrant, double, and freely produced.
Price, \$1.50; \$2.00.

MYRICA—Wax Myrtle

Myrica cerifera. A large shrub, with deep green foliage, nearly evergreen; fragrant. Bears bluish purple berries.
Price, 75c; \$1.00; \$1.25.

PHILADELPHUS—Mock Orange

A family of pleasing shrubs, growing to about 10 feet. The flowers are usually fragrant, and borne in loose, open clusters, blooming in early May and lasting for about a month. They make valuable decorative shrubs in either mass or specimen planting.

Philadelphus coronarius. Common Mock Orange. A profuse bloomer, bearing snowy white flowers.
Price, 50c; 75c; \$1.00.

P. coronarius grandiflorus. Large-flowered Mock Orange. Flowers large, white; leaves large. One of the leading varieties for specimen planting.
Price, 50c; 75c; \$1.00; \$1.25; \$2.00.

POTENTILLA—Cinquefoil

Potentilla fruticosa. A low-growing shrub of upright habit. Foliage dark green; flowers golden yellow. A handsome shrub, used in mass planting. Blooms all summer.
Price, 75c; \$1.25.

PRUNUS PASSARDI

Purple Leaf. Japanese Plum.
Price, \$1.50; \$2.00; \$3.50.

PYRUS (ARONIA)—Chokeberry

Pyrus arbutifolia. Red Chokeberry. A handsome shrub, with downy, dark green leaves. Flowers are pure white, followed by scarlet berries.
Price, 75c; \$1.00; \$1.25.

P. nigra. Black Chokeberry. In foliage and habit the same as the preceding. Berries are black and large.
Price, 75c; \$1.00; \$1.25.

RHAMNUS—Buckthorn

Rhamnus caroliniana. Indian Cherry. A tall-growing shrub, with lustrous dark green foliage. Fruit red, changing to black; sweet.
Price, 75c; \$1.25.

R. frangula. Alder Buckthorn. Grows to about 12 feet. Leaves dark green, changing to orange and red. Fruit red, changing to black.
Price, 75c; \$1.25.

RHODOTYPOS—White Kerria

Rhodotypos kerrioides. A handsome shrub, with large, green leaves and dainty white flowers. Black berries follow the blooming period. May.
Price, 75c; \$1.00.

RHUS—Sumach

R. copallina. Black Sumach. Grows to 25 feet. Leaves glossy green, changing to red in fall. Flowers greenish, and borne at the ends of the branches. July and August.
Price, 75c; \$1.00.

R. cotinus. Purple Fringe, or Smoke Tree. A large handsome shrub, presenting a novel appearance when in bloom. Bark brown; leaves bright green, changing to red and yellow; flowers smoky purple. A fine lawn shrub. May 20 to June 10.
Price, 75c; \$1.00; \$1.25.

R. glabra. Smooth Sumach. Long, narrow leaves; green above and white beneath, turning scarlet in fall. Flowers in large, pyramid-shaped clusters at ends of branches, followed by hairy seeds.
Price, 75c; \$1.00.

Rhus typhina. Staghorn Sumach. A very hardy shrub attaining 25 feet in height. Leaves dark green above, paler beneath, turning to scarlet, purple, and orange; fruit red. A brilliantly colored shrub in autumn.
Price, 75c; \$1.00.

R. typhina laciniata. Fern-leaved Staghorn Sumach. One of our brilliant shrubs in fall, when the dark green foliage assumes dazzling tones of orange, scarlet, and purple. Leaves deeply cut and fern-like. Grows large enough to be useful in specimen planting, but for a blaze of color it should be planted in masses.
Price, 75c; \$1.25.

RIBES—Flowering Currant

Ribes aureum. Missouri or Flowering Currant. A medium-sized shrub, with green, shiny leaves and an abundance of fragrant yellow flowers. Fruit black.
Price, 75c; \$1.25.

R. gordonianum. Pink-flowered Currant. A large shrub, with numerous erect branches. Foliage bright glossy green, turning to yellow; flowers rosy pink, deliciously fragrant.
Price, 75c; \$1.25.

R. sanguineum. Red-flowered Currant. Somewhat similar to the preceding in form and habit. Flowers fragrant, bright crimson, and very showy. A handsome ornamental shrub.
Price, 75c; \$1.25.

RUBUS—Flowering Raspberry

Rubus odoratus. A low, spreading shrub, with very large leaves, shaped like a maple leaf. Flowers rosy purple, large, followed by crimson berries. A very showy ornamental.
Price, 75c; \$1.00.

SAMBUCUS—Elder

Sambucus canadensis. Common Elder. A tall shrub, with pithy stems. Bears large heads of white flowers, followed by dark red berries. June.

STEPHANANDRA

Stephanandra flexuosa. A low shrub, with numerous gracefully arching branches giving a spray-like effect. Foliage glossy green, changing to red and purple. Flowers ivory-white, produced in abundance. Fine hedge plant. June.
Price, 75c; \$1.00.

SPIRAEA—Spirea

Price, 75c; \$1.00; \$2.00.

Length and abundance of bloom in flowering shrubs are given by the graceful Spireas. Some of them bloom in May, others in midsummer, and more in September. The blooming periods given are not absolutely accurate, for it depends largely on the climatic conditions, but the dates will prove near the average year after year. Spireas

are graceful, compact bushes, and many of them possess great hardiness. They will bloom in profusion, if planted in fertile soil, and should be allowed full sun, although it is not necessary. A planting of *Spireas* is always a credit to the grounds, and for foundation and mass planting they are very useful.

Spiraea, Anthony Waterer. A dwarf variety growing to about 3 feet in height. Flowers crimson blooming from June to October.

S. Billiardi. Flowers rosy pink. Foliage deeply cut. June 5 to July 30.

S. Bumalda. A very free-flowering variety. Flowers rose-colored, borne in large clusters. All summer.

S. callosa alba. Fortune's Dwarf White *Spirea*. A low form of remarkable beauty. Flowers white. All summer.

S. opulifolia. A tall variety, bearing clusters of white flowers, followed by red berries. June to August.

S. opulifolia aurea. One of the handsomest of all flowering shrubs. The flowers are ivory-white, produced yellow, forming a delightful contrast with the white flowers and the foliage of other varieties. May 1 to June 1.

S. prunifolia. Bridal Wreath. An exceedingly attractive form, bearing a multitude of white flowers. The glossy green foliage becomes orange-red in fall. April and May.

S. Reevesiana. A tall shrub, bearing clusters of creamy white flowers. Branches droop slightly and are nearly hidden by flowers. May.

S. rotundifolia. Flowers white, borne on slender, arching branches. June.

S. sorbifolia. A tall variety bearing long, showy clusters of white flowers. June.

S. Thunbergii. Flowers white; foliage bright green. The earliest blooming *Spirea*. April.

S. Vanhouttei. A graceful shrub, with numerous arching branches. Leaves dark green, with toothed margins. Flowers snowy white, borne in great profusion. We consider this one of the ideal shrubs for general planting either in hedges, masses, or as specimens. April and May.

STYRAX—Storax

Styrax japonica. A pleasing shrub, bearing a profusion of fragrant, showy, white flowers. A good specimen shrub, as it grows to 10 feet. June.
Price, \$1.00; \$1.50.

SYMPHORICARPOS—

S. racemosus. Snowberry. A low shrub, with smooth, dark green leaves. Flowers are deep rose, followed by white, bead-like berries, remaining on the bush until forced off. July.
Price, 75c; \$1.00.

S. vulgaris. Coral Berry. A quick-growing shrub, producing a wealth of dark, purplish red berries in July.
Price, 50c; 75c.

SYRINGA—Lilac

Among garden shrubs the Lilac is an old, established favorite. White, lilac, and red are the basic colors, and the large flower-clusters of most varieties are sweetly scented. The plant itself does not usually exceed 15 to 20 feet in height, *Japonica* being the largest, as it grows to 30 feet. The Lilac does not require care, for it will do well in any ordinary garden soil, but best results will be secured if the soil is well fertilized and allowed moderate moisture. The larger trees make good lawn specimens, but the smaller varieties give a more handsome effect in mass planting. Bloom in May or June.
Price, 75c; \$1.00; \$1.25.

Syringa japonica. The tallest Lilac. Leaves glossy green; flowers yellowish white. The latest blooming Lilac.

S. japonica Josikaea. Hungarian Lilac. A late-blooming variety, with single, violet flowers.

S. persica. Pale violet flowers in large clusters. A pretty tree at all times.

S. vulgaris. A fine shrub, bearing fragrant, purplish flowers. Single.

S. vulgaris. Like the above. Flowers white; fragrant.

S. vulgaris, Marie Legraye. A low variety, with large ivory-white flowers; single.

S. vulgaris, Madame Lemoine. Large white flowers; double.

S. vulgaris, President Grevy. Blue flowers in huge clusters; double.

S. vulgaris, Souvenir de Louis Spaeth. Pinkish purple flowers in large clusters; double.

S. Double White. Price, \$1.00; \$2.00.

TAMARIX—Tamarisk

Tamarix africana. A slender, graceful shrub, with light foliage and rosy white flowers. Branches are gently arching and have red bark. May.
Price, 75c; \$1.00.

T. gallica. French Tamarisk. A tall shrub, with bluish green leaves. Flowers are pink, and so dense as nearly to hide the branches. May.
Price, 75c; \$1.00.

T. hispida aestivalis. A vigorous, rapid-growing shrub, with feathery foliage. Flowers rosy white; very profuse. June to August.
Price, 75c; \$1.00.

VIBURNUM—Snowball

Viburnum acerifolium. Maple-leaved Viburnum. A graceful, medium-sized shrub, producing an abundance of snowy white flowers, followed by black berries. June.
Price, 75c; \$1.00; \$1.25.

V. cassinoides. Withe-Rod. A hardy, free-flowering shrub, with green foliage changing to purple and red in fall. Flowers rosy white, followed by dark red berries. June.
Price, 75c; \$1.00; \$1.25.

V. dentatum. Arrow-Wood. A low-growing shrub with broad bright green leaves deeply cut on margin. Flowers creamy white, borne in large flat clusters, followed by purple berries. June.
Price, 75c; \$1.00; \$1.25.

V. dilatatum. Japanese Bush Cranberry. A handsome graceful shrub of medium height. Foliage bright green, deeply cut. Flowers white, followed by scarlet fruits. A free-flowering shrub. Very useful for lawn planting. May and June.
Price, \$1.00; \$1.25; \$1.50.

V. Lantana. Wayfaring Tree. Tall-growing shrub, with marked, heart-shaped leaves. Flowers in large clusters; white; borne in May.
Price, \$1.00; \$1.25.

V. Lentago. Sheepberry. An upright shrub, with bright green leaves and creamy white fragrant flowers, followed by black egg-shaped fruits.
Price, \$1.00; \$1.25.

V. Opulus. High-bush Cranberry. A tall, upright shrub with broad, bright green foliage. Flowers creamy white, followed by scarlet berries which remain on the shrub all winter. A very handsome variety the year round. June.
Price, 50c; 75c; \$1.00; \$1.25.

V. Opulus nanum. A dwarf variety. Useful for edging and for planting in front of taller growing shrubs. In foliage and flower the same as the preceding.
Price, 75c; \$1.00.

V. Opulus sterile. Snowball. A fine shrub, bearing globes of snowy white flowers. One of the old garden favorites and a very pleasing lawn shrub. May.
Price, 75c; \$1.00; \$1.25.

V. prunifolium. Black Haw, or Stag-Bush. A tall-growing shrub with lustrous dark green foliage. Flowers snowy white, borne in erect clusters. A very handsome shrub for specimen planting. June.
Price, \$1.00; \$1.50.

V. tomentosum. A vigorous, hardy shrub of spreading habit. Foliage dark green with coppery edges. Flowers white, produced in large clusters and followed by red berries.
Price, \$1.00; \$1.25.

V. tomentosum plicatum. Japan Snowball. A handsome vigorous shrub, with showy white flowers in globe-shaped clusters. Foliage is dark green, making a delightful contrast with the white flowers. A neat-appearing lawn shrub.
Price, \$1.25; \$1.50.

VITEX

Vitex Agnus-castus. Chaste Tree. A tall-growing shrub with extremely showy, dark green, aromatic foliage. Flowers lilac, borne in dense drooping clusters. July and August.
Price, 75c; \$1.00; \$1.25.

WEIGELA—Diervilla

A handsome free-flowering shrub of easy culture. The branches are spreading and bear great masses of showy flowers in late spring or early summer. Some of the larger specimens are very good specimen plants, but in mass planting they show to best advantage. The dwarf varieties should be used in mass plantings.
Price, 50c; 75c; \$1.25; \$1.50.

Weigela amabilis. An attractive shrub with rosy white flowers. Free-flowering and very showy.

W. candida. In form and habit the same as *Amabilis*. Flowers are snowy white. Good for specimen plantings.

W. floribunda. A free-flowering variety of great merit, large enough for specimen planting. Flowers chocolate color when opening, changing to rose color when fully open.

W. hybrida, *Eva Rathke*. One of the finest *Weigelas*. Flowers rich violet-red with a shade of brown. A remarkably free bloomer and worthy of extensive planting. Large enough for lawn planting.

W. hybrida Vanhouttei. The flowers of this fine variety are vivid carmine. A very striking shrub in either mass or specimen plantings.

W. nana variegata. A very pleasing shrub with pale pink flowers. The foliage is beautifully variegated with white spots.

W. rosea. A very handsome variety with rosy pink flowers.

Grandiflora.

XANTHORRHIZA

Xanthorrhiza apiifolia. Yellow Root. An attractive low-growing shrub with bright golden yellow wood. Leaf clusters are bright green. Flowers chocolate-purple. A handsome shrub for planting in front of taller growing varieties. Also very useful in masses by itself.
Price, 75c; \$1.00.

Roses

CLIMBING ROSES

Price, 50c; 75c; \$1.00; \$1.25; \$2.00.

Climbing Roses are very useful for covering stumps, walls, or other unsightly places, and for screening the porch from the hot sunlight. They are easy to grow, hardy, and blossom within a remarkably short time after planting. The foliage is dark green, dense, and shady, and the pretty blooms are usually fragrant. The varieties in the following list are extra-strong, field-grown.

American Beauty. A climbing form of the well-known American Beauty. Blooms are large, fragrant, and a deep rose color.

American Pillar. A new Rose of remarkable merit. Its color is a lovely pink with a clear, snowy eye. A remarkably free-flowering variety, worthy of extensive planting.

Crimson Rambler. Another new Rose and a great favorite wherever planted. The plants are strong and bear myriads of brilliant carmine flowers.

Dorothy Perkins. One of the old favorite varieties which has been extensively planted for several years. It grows very rapidly, frequently 20 feet in a single season, and bears a multitude of delightful cherry-pink flowers. A hardy variety that will grow almost anywhere.

Dr. Van Fleet. The flowers of this fine climber are rich rosy pink. A very vigorous grower, bearing an abundance of beautiful blooms.

Excelsa. A remarkable Rose of comparatively recent introduction. It is as near mildew-proof as any Rose can be. The color is a very brilliant crimson.

Gardenia. A new climbing rose of great merit. Its color is bright sulphur-yellow, becoming creamy white as the flower expands. Very fragrant and free-flowering.

Hiawatha. Intense fiery scarlet blooms, borne on long rapid-growing vines. An excellent variety for trailing over arches.

Lady Gay. Delightful cherry-pink flowers and lustrous green foliage. Considered by many as being better than the famous Dorothy Perkins.

White Dorothy Perkins. In appearance and habit this climber resembles the parent, the only marked difference being that these flowers are white and borne in large clusters.

WICHURAIANA ROSES

Wichuraiana. A hardy Rose that will grow equally well in sun or shade. The blossoms are ivory-white with yellow eye; large.

Ornamental Vines, Climbers

For porch draperies or for covering walls, fences, stumps, or other unsightly objects, Vines and Creepers have a place all their own. They grow rapidly, are hardy, and require no care. Some vines like shade, while others are fond of the sun. They should be planted in a deep rich soil, and an occasional top-dressing of decayed manure will help them to make a strong growth. In the list below we offer those which we think will give the best satisfaction in our climate.

ACTINIDIA—Silver Vine

Actinidia arguta. A strong, climbing vine with shining dark green, heart-shaped leaves. Flowers are white with purple center, and borne so profusely as to cover a whole vine.

Price, 75c; \$1.00.

AKEBIA

Akebia quinata. A fine ornamental vine and one of the best climbers we have. Foliage dark green, nearly evergreen; flowers are rosy purple, produced in late spring.

Price, 75c; \$1.00.

AMPELOPSIS

Ampelopsis quinquefolia. Virginia Creeper. A high climbing vine, covered with deep green foliage which changes to fiery red in fall. A rapid grower; very handsome.

Price, 50c; 75c.

A. Veitchii. Japanese or Boston Ivy. A graceful rapid-growing vine with handsome lustrous green foliage, which assumes a yellow tint in fall.
Price, 75c; \$1.00.

CELASTRUS—Bittersweet

C. scandens. A high-climbing vine with bright green leaves. Pods are golden and crimson, persisting all winter.
Price, 75c; \$1.00.

CLEMATIS

C. Jackmanii. Large, velvety purple flowers borne in great profusion.
Price, \$2.00.

C. paniculata. Japanese Clematis. A vigorous hardy climber considered by many as one of the most useful of hardy vines; bears white flowers in late summer.
Price, 50c; 75c.

DOLICHOS

Dolichos japonicus (Pueraria Thunbergiana). Kudzu Vine. A remarkable vine suitable for any purpose that a vine can be used for. The leaves are bright green and the flowers are purple. A wonderful vine on account of its rapid growth.
Price, 75c; \$1.25.

EUONYMUS

Euonymus radicans. A hardy, rapid-growing vine with small rich green foliage which remains on the vine until winter.
Price, 75c; \$1.00.

E. radicans vegeta. A low, trailing evergreen considered as one of the finest vines. Foliage is abundant, glossy green. In a short time this vine will cover up stumps, walls, or other unsightly objects.
Price, 75c; \$1.00.

HEDERA

Hedera Helix. English Ivy. An old favorite climbing vine of great merit. It is very hardy and is now being used extensively for covering walls and the sides of houses.
Price, 75c; \$1.00.

TECOMA—Trumpet Vine

T. radicans (Bignonia radicans). American Trumpet Vine. A splendid climbing vine with large compound leaves, flowers orange-red inside and clear bright red on the outside, borne in July and August. A very handsome vine and one of the few flowering in mid-summer.
Price, 50c; 75c.

WISTARIA

W. multijuga. Japanese Wistaria. A rapid-growing vine with bright green foliage, bearing purplish or lilac-blue flowers in immense clusters.
Price, 50c; 75c; \$1.00; \$1.50.

Hedge Plants

In order to make it easier for you to select proper plants we have made a special department of what we have found to be desirable hedge plants. Hedges are useful in many ways. You can use them as borders between your grounds and those of your neighbor, where they take the place of an unsightly fence and are just as effective, or as specimens, and are often planted as such. The plants listed below will give excellent service in this locality, and we feel sure they will give good results. They are vigorous, hardy, and will thrive under ordinary conditions. Tear down that ugly fence and plant a hedge that will become more beautiful every year.

BERBERIS—Barberry

Berberis Thunbergii. Thunberg's Barberry. This is a handsome low shrub of vigorous habit. The numerous branches spring out from the surface of the ground and curve spray-like at the ends. A multitude of small scarlet berries are retained all through the winter. When used as a hedge, it forms a barrier so dense that even small animals cannot penetrate. For foundation and specimen planting it has no superior.
Price, 25c; 35c; 50c; \$1.00; \$2.00.

LIGUSTRUM—Privet

Ligustrum amurense, North. Amoor River Privet. A shrub which will grow to 15 feet, if not trimmed. If planted in hedge, they should be at least a foot apart and closely trimmed each year. Will stand the coldest climates without injury.
Price, 50c; 75c; \$1.50.

L. Ibota. Japanese Privet. This shrub bears numerous large glossy leaves and fragrant white flowers.
Price, 50c; 75c; \$1.50.

L. ovalifolium. California Privet. A superb shrub for hedge planting. The leaves are large glossy green. Plant grows to variable size; it is hardy and will endure almost any locality. The dense foliage is retained until late in winter.
Price, \$5.00; \$8.00; \$10.00, per 100.

L. Regelianum. Regel's Privet. A valuable shrub with dark green leaves and numerous branches. While useful in hedge planting, it does not make quite so dense a barrier as California Privet. We would recommend this variety especially for high hedges to be used as screens, and as specimen plants.

LONICERA—Honeysuckle

Lonicera fragrantissima. Fragrant Upright Honeysuckle. A handsome shrub with dark lustrous foliage retaining its color nearly all year. Bush is hardy, vigorous stands drought, and is free from insect pests and diseases. The delightfully fragrant, creamy yellow flowers are produced in early spring and again in fall.
Price, 75c; \$1.00.

Hardy Perennials

For those people who do not wish to set out new plants every spring in order to get blooms that summer, hardy perennials are the things to plant. With these it is not necessary to replant each spring. The tops die back to the ground after frost but the roots still retain their vitality and the plants shoot up again the following spring with even greater vigor than they did before.

DELPHINIUM—Hardy Larkspur

Delphinium Belladonna. Handsome flowers borne in great abundance on tall, upright spikes. The color is a pronounced sky-blue. Blooms from June until frost.
Price, 50c each.

HOLLYHOCKS

The Hollyhock has been a favorite plant in the hardy garden for many years, and it is as valuable today as it was when first planted. It does not require much care but does well in good, fertile soil.
Price, 25c; 35c, each.

IRIS

For early spring beauty in the hardy garden, plantings of Irises are always valuable. The blooms are of many colors and open in May. The stiff, reedy, bright green foliage is pretty all through the summer. Irises do not require much care, but like a sunny location and fairly rich soil. We have selected the varieties which will give the best satisfaction in this locality.
Price, 35c each. Clump.

PAEONIA—Peony

If there is one flower that is destined to outrival the Rose, it is the modern Peony. A multitude of charming colors are seen in the many varieties given in our list; snowy white, fiery pink, brilliant scarlet, and other shades and tints are represented. The proper time to plant Peonies is in September, October and November. If planted then, there is every chance that they will bloom the following June. Peonies like a rich soil and will respond gratefully to a little attention.

All plants offered and priced are three to five eyed, one year plants, transplanted or divisions. Two year plants are double the price of one year. Three year plants are three times the price of one year.

Price, 50c each; 3 to 5 eyes.

PHLOX

One of the daintiest and prettiest of all hardy perennials. Unlike the average flowers of the perennial class its beauty lies in the great clusters of small flowers.

Price, 35c each.

GLADIOLIA

Gladiolia. Price, \$1.00 per dozen.

DAHLIAS

Come and select the variety you want in September and October for spring delivery.

Price, 25c to \$2.00.

Yucca filamentosa. Adam's Needle. A hardy plant which will give your garden a tropical look. The leaves are evergreen, sharp, and spiny on the edges. The waxy, bell-shaped flowers are borne on a slender stem often 6 feet tall.

Price, 25c; 50c each.

GRASSES

Price, 50c each.

Arundo Donax. Reed Grass, or Great Weed. Often attains a height of 15 feet. Should be planted in clumps.

Arundo Donax variegata. Somewhat lower-growing than the preceding. Foliage is dull white, variegated with green.

Erianthus ravennae. Plume Grass, or Hardy Pampas. Grows about 6 feet. Makes a dense clump.

Eulalia gracillima univittata. Japan Rush. A graceful ornamental grass growing to about 6 feet. The reeds are long, narrow, and bright green in color.

E. japonica variegata. An ornamental grass with long green leaves striped with white. Grows to about 6 feet.

E. japonica zebrina. A striking ornamental grass marked with golden yellow bands running across the leaf.

Palaris arundinacea variegata. Variegated Ribbon Grass, or Gardener's Garters. Grows to about 3 feet. Foliage is large, variegated white and green. A handsome ornamental grass for bordering large beds.

Fruit Trees

Fresh fruit is always desirable for the table; therefore, it is good policy to have a few fruit trees in the garden. A few Apple, Peach, Pear, or Cherry trees do not cost very much and they bear luscious fruit that you will like. Grapes are another fruit that should be on the home grounds, because the vine is ornamental, and the fruit is healthful. The trees given in our lists are extra strong and are well suited for nearly all localities.

APPLES

Price, 75c each; \$8.00 per dozen; 2-year trees.

SUMMER

Early Harvest. Medium sized Apple; pale yellow; tender, juicy, nicely flavored. July.

Red Astrachan. Large size; juicy, nicely flavored. Tree hardy; good bearer. July and August.

Red June. Medium-sized Apple; red. June and July.

Sweet Bough. Handsome fruit; pale golden yellow with a faint reddish blush. July.

Yellow Transparent. Pale yellow skin and tender juicy flesh; heavy bearer. June and July.

AUTUMN

Gravenstein. Large to very large. Skin pale yellow with reddish streaks; excellent flavor; keeps well. October.

Rambo. One of the old favorites size medium; color yellow, streaked with red; flesh tender; flavor spicy; tree vigorous. October.

Smoke House.

WINTER

Delicious. Without a doubt this is one of the best apples for all sections of the country. It is hardy, vigorous, and bears heavy crops of luscious fruit. The flesh is crisp, fine grained, juicy; flavor slightly acid but very pleasing. Its color is dark red, shading to yellow.

Grimes (Grimes' Golden). Medium-sized; fresh yellow, tender; flavor spicy and pleasing. A fine apple for eating raw or for cooking; keeps well. October to January.

Rome (Rome Beauty). Large; round; red stripes; fine flavor; excellent quality. November to February.

Stark. Large; yellow, with red shadings; flesh yellow, mildly sub-acid, excellent flavor. December to May.

Stayman Winesap. Large; red stripes; flesh yellow, juicy. Without doubt one of the best for either home or market use. November to April.

Mamouth Black Twig.

CRAB-APPLES

Price. \$1.25 each; \$12.00 per dozen.

Hyslop. Large; crimson; acid.

Transcendent. Yellow with a red cheek.

APRICOTS

Price. \$1.00 each; \$10.00 per dozen.

PEACHES

Good varieties.

Price. 75c each; \$8.00 per dozen.

CHERRIES

Price, \$1.25 each.

Tartarian (Black Tartarian). Flesh juicy; flavor sweet. Extra large.

Wood (Governor Wood). Yellow; flesh juicy; delicious.

DUKE AND MORELLO CHERRIES

Large Montmorency. Bright red, flesh medium-sized; very sour.

PEARS

Price, \$1.25 each.

SUMMER

Bartlett. Large; flavor luscious. August and September.

AUTUMN

Kieffer (Kieffer's Hybrid). Large; flesh juicy; high flavor. October and November.

Seckel. Flesh fine-grained; flavor sweet and melting; early. September.

Koonce.

PLUMS

Price, \$1.25 each.

Abundance (Botan). Large; juicy; flavor sweet; small pit. August.

Red June. Large; skin purplish red; flesh yellow; quality good. July 1.

Shropshire (Shropshire Damson). Flesh juicy; highly flavored.

QUINCES

Price, \$1.25 each.

Champion. Large; quality fine; flavor very pleasing.

Small Fruit

GRAPES

Price, 25c each; \$2.50 per dozen.

BLACK

Concord. Fine black variety; juicy and sweet; the standard variety in most sections.

Eaton. Brownish black; juicy and sweet.

Moore (Moore's Early). Large; flavor fine; quality excellent.

Wooden. Large; pleasing flavor; vines strong and productive.

RED

Agawam. Large; tender; juicy; flavor very good.

Brighton. Large; flavor and quality excellent; an early ripener.

Delaware. Very sweet spicy flavor.

WHITE

Lindley. Large; flesh tender; flavor sweet.

Niagara. Perhaps the best white grape; bunch and berries large; pale yellow when fully ripe; flavor sugary.

Pocklington. Large bunch; vine hardy and productive.

CURRANTS

Price, 25c and 50c each.

Red Cross.

Loudoun Market.

GOOSEBERRIES

Price, 25c and 50c each.

Downing. Large; greenish white; flesh soft and juicy.

Houghton. Medium-sized; pale red; flavor sweet.

Red Jacket.

RASPBERRIES

Price, \$1.50 per dozen; \$10.00 per hundred.

RED

Cuthbert. Large; red; flavor luscious and sweet.

St. Regis. Large; deep red; fine flavor.

BLACK

Price, \$1.00 per dozen; \$6.00 per hundred.

Cumberland. Very large; flesh firm, juicy and very sweet.

BLACKBERRIES

Price, \$1.00 per dozen; \$6.00 per hundred.

Early Harvest. Medium-sized; flesh tender; juicy. Bush is a vigorous grower and heavy cropper.

Eldorado. Pleasing melting flavor; sweet. Bush hardy and productive.

Erie. Large berries of good quality; ripens early.

DEWBERRIES

Price, \$1.00 per dozen; \$6.00 per hundred.

Lucretia. Sometimes called Trailing Blackberry. Fruit large and handsome; flavor very pleasing.

STRAWBERRIES

Price, \$1.25 per 100; \$10.00 per 1,000.

Warfield; Gibson; Corsican; Charlet; Glen Mary; Brandywine; Uncle Jim.

Aroma. An old standard variety, bearing delicious berries.

Dunlap. Ripens in mid-season; keeps well; berries medium size.

Stevens. (Stevens' Late Champion). Ripens very late. Berries large, firm; flavor good.

RHUBARB—Pie-Plant

Price, 15c each; \$1.50 per dozen.

ASPARAGUS

Price, \$2.00 per hundred.

Palmetto. Early; thick green stems; very prolific.

Colossal (white).

Nut Fruits

PECAN

Price, \$1.50 to \$2.50 each.

JUGLANS—Walnut

Juglans cinerea. Butternut. A handsome tree with grayish bark; produces large elongated nuts. Kernel very meaty, sweet, and delicious.

Price, \$1.50.

Juglans regia. English Walnut. Produces large crops of delicious thin-shelled nuts. Too well known to need description.

Price, \$2.00.
